Exploring my Interests and Influence

What interests me and how can I grow?

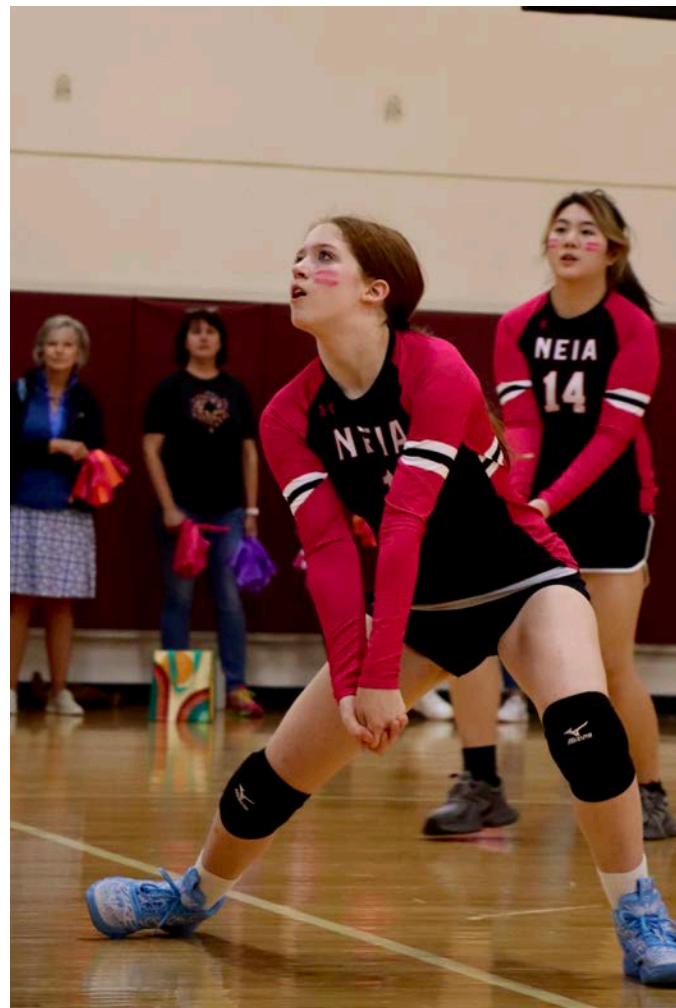

The Innovator Journey captures the evolving experience of NEIA students as they discover what excites them (Purpose), make a difference in their communities (Impact), and prepare for what's ahead (Next). Rooted in belonging, the journey begins with exploration and curiosity, expands through hands-on learning and creative problem-solving, and culminates in real-world projects that reflect each student's purpose and voice. This journey is a way of thinking and growing that students will carry with them beyond NEIA.
